Description

Our smallest pot product to meet the budget when needed, the pot and pellet allow the seeds to germinate and grow it's roots right through the sides of the pellet and pot. When ready the whole thing can be planted out into the open ground or larger pot, with no stress or root disturbance to the young plant. Pot, pellet and 3 seeded sticks are contained within the pack and held in place by a simple custom printed wrap. Other seed packing options are available if you are looking for larger seed varieties that we can't put on sticks, mention this in your enquiry. Price includes 1 seed variety, growing medium and a plantable biodegradable pot. Each order has the option of full colour print to the outer and inner packaging and choice of seed variety from our website. Growing instructions, common name, botanical name and expected germination time of seeds appear on all our products. All our printing uses soy and vegetable based inks on 100% recycled board with a standard gloss finish.
