Notes

Details such as measure, weight indications are approximate figures only. We reserve the right to change colours, printable areas, technical details or designs.

To achieve effective branding logo display, we recommend the following:

- * For the front chest and full back, we suggest a minimum width of 10cm.
- * No less, 1cm other side being placed accordingly.
- * At least 1cm bottom margin.
- * At least 1cm away from the edge of the sleeve.

When a pattern extends across 2 panels, such as connecting the front and back panels in a side seam, often designs will not perfectly align. Generally, there's about 0.5cm allowance for this mismatch.
