Description

Our eco-friendly Neck Gaiter will give you a stylish look. The Neck Gaiter is made of RPET material, which can effectively reduce carbon dioxide emissions in the production process and save nearly 80% of energy compared with traditional polyester fiber production. We can digitally print the surface of RPET Neck Gaiter according to your design. The RPET Neck Gaiter has the advantages of softness and good elasticity, and is not easy to deform. It can maintain its shape after many wears.
