Notes

Details such as measure, weight indications are approximate figures only. We reserve the right to change colours, printable areas, technical details or designs.

To achieve effective branding logo display, we recommend the following:

- Minimum width of logo is 10cm for size L, other size will be scaled accordingly.
- All text 5mm away from the seam of the neckline.

Please note that designs that extend from the body of the item to the neckline or collar, often may not match up perfectly due to differences in curves of the material.

When a pattern extends across 2 panels, such as connecting the front and back panels in a side seam, often designs will not perfectly align. Generally there's about 0.5cm allowance for this mismatch.

To achieve effective branding logo display, we recommend the following:

- For the front chest area and back, we suggest a minimum width of 10cm for size L, other size will be scaled accordingly.
- All text 5mm away from the seam of the neckline.

ADDITIONAL CUSTOM LABEL AND PACKAGING

Labels with a custom content better fit need layout on the design. It can reduce off-brand content across the range of labels, and ensure design and content consistency. Furthermore, it provides different size options and more space for content.

- **Front Label** - 10cm x 10cm
- **Back Label** - 10cm x 10cm
