Description

The IGPCUP03 Single Walled Paper Cup is a practical and environmentally conscious solution for serving hot or cold beverages. With a 400ml capacity, it is ideal for coffee, tea, water, and sample drinks at events, cafés, offices, and promotional activations. The cup is compostable and biodegradable, featuring a plant-based lining made from renewable plant materials rather than conventional oil-based plastic. The lined interior provides resistance against leaks and moisture, while the lightweight single-wall construction offers convenient everyday use. Available with a choice of black or white lid, the cup can also be customised with vibrant full-colour printing for excellent brand visibility.
