Description

House-shaped 5W wireless phone charger which is ideal for promoting a wide range of home services. It is compatible with devices that are enabled for wireless charging and will charge most modern phones. Simply plug it into any USB port or a mains adapter and place a compatible device on it for convenient wireless charging. It has an input power of 5V/2A and an output of 5V/1A. The charger is supplied with an extra-long 1 metre Type-C USB cable and an instruction leaflet. The wireless charger will work at the optimum power level when used with a 5V/2.4A mains adaptor. Using a PC/laptop USB output to power the wireless charger may lead to slow charging, or not charging at all. Other factors like, positioning on the charging surface and the type of case used may also impact wireless charging.
