Description

This oval acrylic keychain features a clear design with a four-colour digital logo insert. The logo can be printed on both sides if needed; if not specified, only one side will be printed, and the second side will remain blank white. Made in Australia, this keychain offers a clean, professional look. Variable-data printing (VDP) (Also known as variable-information printing (VIP) or VI) is a form of digital printing, including on-demand printing, in which elements such as text, graphics and images may be changed from one printed piece to the next, without stopping or slowing down the printing process and using information from a database or external file. For example, a set of labels, each with the same basic layout, can be printed with a different name on each label. Variable data printing is mainly used for direct marketing, customer relationship management, advertising, invoicing and applying addressing on selfmailers, brochures or postcard campaigns. Please note that due to the material of the product, this keychain is prone to scratching. We suggest you individually polybag the keychain for an extra TBA to minimise damage.

Details

Item Size
82mm W x 28mm H

Decoration Options
4 Colour Process

Decoration Areas
4 Colour Process (Per Side) 66mm x 24mm

Notes

Details such as measure, weight indications are approximate figures only. We reserve the right to change colours, printable areas, technical details or designs.

Why Should You Buy From Us?

Long Trustworthy & Recognised Member of APPA
