Description

Keep things fresh and clean with our Antibacterial Wipes in the Packet! Perfectly sized for handbags, backpacks, or purses, each custom packet contains 20 wipes with a refreshing citrus scent. The easy-to-open plastic lid ensures convenient use anytime, anywhere. This makes for a practical and thoughtful personalised gift that your customers and colleagues will appreciate. Variable-data printing (VDP) (Also known as variable-information printing (VIP) or VI) is a form of digital printing, including on-demand printing, in which elements such as text, graphics and images may be changed from one printed piece to the next, without stopping or slowing down the printing process and using information from a database or external file. For example, a set of labels, each with the same basic layout, can be printed with a different name on each label. Variable data printing is mainly used for direct marketing, customer relationship management, advertising, invoicing and applying addressing on self-mailers, brochures or postcard campaigns.
